

Wet/Dry Finishing Feeder

The original: More gain, less waste

Proven to be the industry's most profitable feeder

Pigs have the choice to eat dry feed from the shelf or combine feed and water in the trough.

Improve daily gain while decreasing feed and water waste.

Add 80% more feed capacity with an extended hopper model.

Patented EZ-Adjust™ is a quick, easy, and repeatable adjustment providing precise feed flow control in 1/16" (1.5 mm) increments.

Trough divider and low lip height allow feeder to be used in wean-to-finish facilities.

Feeds up to 16 pigs per feed space.

Wet/Dry Finishing Feeder

series # **F1** **Wet/Dry Feeder-to-Finish**
 No guard under water line
 50 lbs minimum pig weight
F3 | Single Sided configuration

series # **F2** **Wet/Dry Wean-to-Finish**
 Guard present under water line
 14-280+ lbs pigs

series # **WF9** **Wet/Dry Wean-to-Finish + Two-Stage Feed Shelf**
 Throat insert included
 Guard present under water line
 8-280+ lbs pigs

High-quality construction

Heavy duty construction: 12, 14, and 16 gauge 304 series stainless steel.

Lapped and folded parts eliminate sharp edges and strengthen wear points.

Welded for strong, long-lasting construction.

Multiple holes and knockouts allow for many mounting situations; various mounting accessories available.

Total pigs per feeder	24-32 pigs	48-64 pigs	66-84 pigs	72-96 pigs	96-128 pigs	120-160 pigs	144-192 pigs
Spaces per side / length	1 space / 15"	2 spaces / 30"	3 space / 42"	3 space / 48"	4 spaces / 60"	5 spaces / 72"	6 spaces / 86"
Feeder model	Model 115	Model 230	Model 342	Model 348	Model 460	Model 572	Model 686
Dimension (A1 x C)	14.9" x 30.8"	28.7" x 30.8"	40.7" x 30.8"	46.7" x 30.8"	58.7" x 30.8"	70.7" x 30.8"	84.7" x 30.8"
Feed capacity ^{1,2}	87 lbs	168 lbs	227 lbs	273 lbs	343 lbs	413 lbs	495 lbs

¹capacities will vary based on your barn and feed situation. ²hopper capacity based on double sided configuration. ³other configurations are available upon request
