

Poultry Hawk

Premium Series

Designed by a farmer for farmers

The original Premium Series was created for poultry farmers to have “A better way” to carry out the daily tasks in the barn. The trolley system rolls along a heavy duty track to save lugging pails of deads and culls down the length of the barn making chores easier and more enjoyable. The system is available with a host of options that can be added right away or down the road.

- Powered by deep cycle 12V battery for long lasting operation
- Dock charger option for automatic charging
- High quality swaged rail system is quick and easy to install
- Powdercoated construction
- 450lb basket capacity
- Can be completely manual or automated with reliable control panel
- Great way to help you deal with dead birds, tote feed, carry egg flats or load with tools and parts to perform regular barn maintenance.

Tailor your system to your needs:

Poultry Hawk

E-SERIES

Designed by a farmer for farmers

The E-Series line of Poultry Hawk was created on the same principal as the Premium Series - "A better way" to carry out the daily tasks on your poultry farm but offers a more economical way to get started with a Poultry Hawk system. There are a few less features than the Premium Series but it shares the same high quality build and easy installation.

- Powered by your choice of Dewalt, Makita or Milwaukee 20V battery
- 5AH battery can last over 2 days of walking your barn
- Same high quality rail system as Premium Series
- Galvalume construction
- 450lb basket capacity
- Can be completely manual or automated with reliable control panel
- Great way to help you deal with dead birds, tote feed, carry egg flats or load with tools and parts to perform regular barn maintenance.
