

# The ROTARY FORK

## *Quick Attach Bedding Management for Poultry Barns*

### Benefits of the Rotary Fork

- Use less straw (also works for shavings)
- Create a base that is nice and flat for waterers & feeders
- Save on fuel vs. blown in bedding
- Fast and easy process, can be done by 1 person
- Barn setup according to your own schedule, not dependent on weather

### 2 Sizes Available:

- 9' Fork (9' 8" Overall Width)
- Available in Skid Steer, ALO & Manitou mounting configurations
- Hydraulically Driven using aux. machine hydraulics
- Levelling jacks to set bedding depth
- 5' Fork (70.5" Overall Width)
- Fits standard Ventrac / Steiner implement mounting brackets
- Belt Driven using machine drive pulley
- Levelling jacks to set bedding depth
