

EggLifter

Save your back palletizing eggs the quickest and easiest way

Save your back The EggLifter has established itself as the most cost-effective and user-friendly solution for egg palletization. With a design focused on simplicity and efficiency, this innovative setup allows poultry farmers to stack and palletize eggs in an effortless manner. It minimizes the complexity and costs associated with other palletizing systems, making it a favorite choice in the poultry industry. Stack a pallet full in 3 minutes. Designed to fit your poultry farm.

Designed to palletize four stacks of eggs simultaneously on a pallet. With manual operation, without the need for sensors or complicated structures, it not only minimizes maintenance needs but also ensures an ergonomic working environment. The physical strain is very minimal, which prevents back and shoulder complaints. A pallet can be quickly filled, this allows you or your staff more time for egg quality control at the farm packer. The EggLifter not only saves time, but also guarantees the highest standards in egg management.

Great choice!
